PROFESSIONAL SUMMARY

Tech lead with 5 years of experience in Salesforce development and system analysis within a multi-campus academic environment. Proficient in Salesforce technologies including Apex, LWC, and Flows, with a strong background in integrating AI solutions to improve operational workflows. Experienced in coordinating cross-functional teams and ensuring quality deliverables while supporting data governance and system adoption initiatives.

PROFESSIONAL EXPERIENCE

System Analyst / Salesforce Developer – INSEAD (4 years)

- Contributed to sustainable adoption, operational alignment, and structured governance in Salesforce.
- Designed and maintained structured reporting dashboards within Salesforce Experience Cloud.
- Consolidated data tracking and performance metrics to support operational decision-making.
- Developed advanced automation solutions using Flow, Apex, LWC, and Aura components, including AI integrations via LLM APIs, reducing processing time by 30%.
- Coordinated cross-functional stakeholders (PMs, Business, Marketing, IT) to translate operational policies into effective solutions.
- Contributed to data governance and integrity initiatives, including validation frameworks and audit-ready documentation.
- Investigated and coordinated cross-system integrations within the Salesforce–Oracle ecosystem to ensure reliable data synchronization and reporting consistency.
- Participated in deployment cycles across INT/UAT/PROD environments, ensuring release stability and operational clarity during system evolution.
- Contributed to CI/CD practices using GitHub, supporting structured version control, deployment readiness, and release coordination across multiple environments to improve delivery consistency and reduce manual effort.

Full Stack Developer – Freelance (1 year)

- Delivered structured digital solutions for SMEs, translating business needs into organized operational workflows.
- Managed full lifecycle coordination including requirements analysis, implementation support, and post-deployment guidance.
- Integrated AI-enabled features to enhance operational efficiency and digital usability.
- Developed documentation and structured support materials to ensure sustainable system use.

EDUCATION

Bachelor & Master in Development, Big Data & Artificial Intelligence – IPSSI Paris
DEUG in Computer Science – Université Savoie Mont Blanc

CERTIFICATIONS

- Salesforce Administrator
- Salesforce AI Associate
- Salesforce Agentforce Specialist
- Google IT Automation with Python
- INSEAD – Growing Together
- Google Advanced Data Analytics

SKILLS

Salesforce Development:

Apex, LWC, Flows, SOQL, Experience Cloud, Validation Rules

AI & Intelligent Automation:

Salesforce Einstein, OpenAI / LLM API Integrations, Workflow Automation

Data Engineering & Analytics:

PostgreSQL, Oracle SQL, MySQL, Data Modeling, Data Integrity Frameworks, BI Dashboards

DevOps & Process Optimization:

CI/CD, Git, Release Management, Process Optimization, Cross-Functional Collaboration

LANGUAGES

- English – Fluent
- French – Bilingual
- Arabic – Native
- Italian – Basic
